ABOUT US

At Kiddoro, we're dedicated to creating joy and adventure with our beautifully crafted swing sets and play equipment. With over seven years of experience, we design playsets that inspire children's creativity and physical development, offering endless opportunities for fun and imaginative play.

Our playsets are not just toys; they are designed with attention to detail and made from durable materials to ensure safety and excitement for years to come. We strive to make quality accessible, providing affordable options without compromising craftsmanship.

Inspired by the word "Pomodoro"—which signifies time set aside for productivity—we created Kiddoro to represent a child's special time to play, explore, and learn. Our playsets not only look great but also add a royal and premium feel to any home, blending seamlessly with modern or traditional interiors.

Affordability is important to us. We've ensured that Kiddoro's pricing is accessible to families while maintaining a premium quality that parents can be proud of. These playsets aren't just toys—they're a space where children can dream and imagine. They can pretend to own their very own house, inspiring them from a young age to take pride in their personal space.

Each playset is fully customizable, allowing families to create the perfect play space that suits their child's unique needs and preferences. We've built these sets with passion and emotion, ensuring that every child who owns a Kiddoro playset feels like they have their very own special place to call home.

SAFETY MEASURES

Safety and comfort are at the heart of what we do. We've chosen high-quality wood that can withstand the extreme temperatures of the Middle East. Unlike metal structures that heat up quickly, our wooden sets remain cool and safe, allowing children to play comfortably even in warmer weather. Each playset features rounded edges and careful craftsmanship to ensure the utmost safety for your little ones.

KIDDORO WOOD

- **Hypoallergenic:** Safe for kids with sensitive skin.
- **Low Toxicity:** Contains minimal natural toxins, ensuring safety.
- **Sustainable:** Renewable resource, eco-friendly choice.
- **Rot-Resistant:** Naturally resists rot and decay for outdoor durability.
- **Weatherproof:** Withstands rain, snow, and sun.
- **Durable:** Strong enough for active play.
- **Natural Beauty:** Warm, elegant appearance.
- **Versatile:** Fits various playground styles.
- **Affordable:** Cost-effective compared to other woods.

SPECIAL NOTE

“Let them play! The more they play, the more resilient and socially adept they will become.”

—Jessica Joelle Alexander, Author
